

## Educational Masters

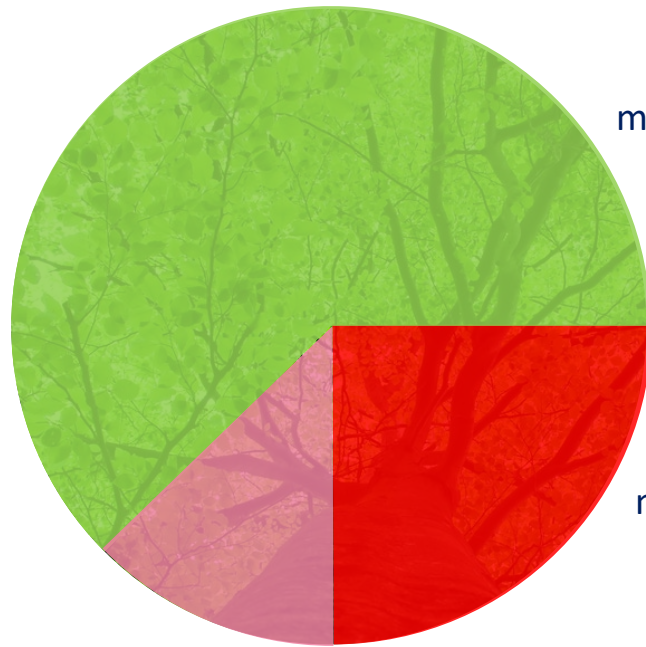

**BIOLOGY eduma**

chemistry  
physics  
math  
tech

**STEM eduma**

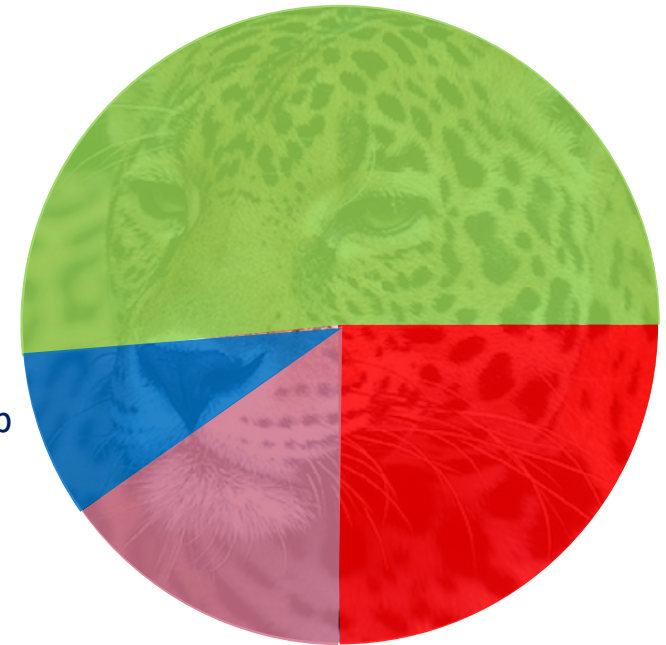

## Research Masters

mandatory courses

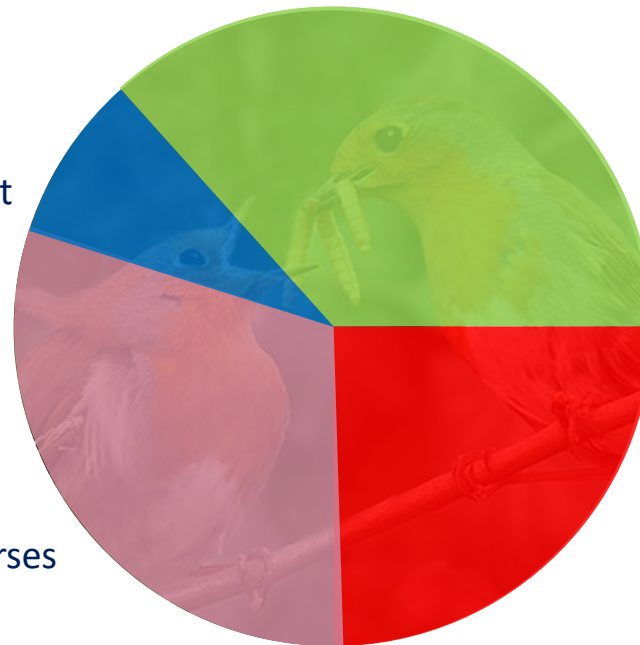

conservation internship

master project

## Biodiversity: Conservation and Restoration

## Global Change Biology

individual project

elective courses

## Evolution and Behaviour

Ecosystem management

Molecular plant physiology

Evolutionary ecology

Physiology and ecotoxicology

Functional morphology

Plants and ecosystems

Behavioural ecology

## Strengths

- Research-education nexus
- Problem-oriented
- International
- Amicable
- Green campus
- Bio-space
